

EXPLANATION OF FINANCE CHARGE ON OPEN-END ACCOUNTS

The FINANCE CHARGE on each open-end account shown on this statement is computed by multiplying the daily periodic rate by the daily balance of that account on each day of the billing cycle. The daily balance is determined as follows: For each day of the billing cycle we take the balance of the account for the previous day add any new loans and charges, and subtract any credits and payments made on that day. FINANCE CHARGES are also subtracted until you make a payment. This gives us the daily balance of your account for that day. The billing cycle is the time between each statement, which will be approximately one month.
